**N P OGAREV MORDOVIA STATE UNIVERSITY OF MEDICAL SCIENCE
(NATIONAL RESEARCH UNIVERSITY)**

68, BOLSHEVISTSKAYA STREET, SARANSK

– 430005, REPUBLIC OF MORDOVIA

RUSSIAN FEDERATION

WELCOME TO NP OGAREV MORDOVIA STATE UNIVERSITY

N. P Ogarev Mordovia State University now boasting a status of a National Research University is a Federal state budgetary academic institution of higher education offering the whole spectrum of academic programmes for under graduate, graduate and post graduate students. Among its core activity is fundamental and applied research, further training and qualification improvement courses for teaching staff and scholars. It is the major higher Education Institution in the Republic. By the Federal Government edict dated 20th May 2010 Ogarev Mordovia State University was conferred as category “NATIONAL RESEARCH UNIVERSITY”.

N. P Ogarev Mordovia State University founded in 1931 as the Agronomy Pedagogical Institute it gradually expanded and granted the University status in 1957. Its milestone in the evolution of quality education in the Republic of Mordovia. The great majority (about 75%) of eligible Mordovian students attend Ogarev Mordovia State University. This determines its pivotal role as a centre of education, research, culture and services for Mordovia and its people.

N. P. Ogarev Mordovia State University is situated in SARANSK capital of Republic of Mordovia, 620 kilometres south east of Moscow. With its 28 Academic buildings, 12 residence halls (9 for undergraduate students and 3 for graduate students and academic staff) it is active in other Mordovian towns where it has 2 filiations.

Teaching staff is of some 1,700 (13.5% of Doctors, Full Professors and 66% of Senior Lectures). University has a Student population composed of over 13,000 full timers, 8000 part timers and 240 evening Students. There are also over 350 International Students.

The learning and teaching methods focus on direct contact with students through lectures, workshops and practical classes. Throughout their course students are expected to complete theoretical and practical tasks and assignments and to undertake tests and final examinations at the end of each semester.

Bachelor degrees are conferred upon completion of a 4 year period of study. Medical Institute offers 6 year programmes of study respectively.

Upon successful completion of above programmes the graduates receive a certificates approved by the Russian Federal Ministry of Science and Education. Prospective Students can choose from a variety of 133 available tracks of undergraduate and graduate study.

INSTITUTE OF MEDICINE

Faculty of Medicine opened on July 1st 1967 by the Ministry of Higher and Secondary Special Education. The annual enrolment was 175 students in the speciality "General Medicine". From the earliest days of the faculty are their own history and the oldest of the department - normal anatomy, normal physiology, histology cytology and embryology. In 1969 it's began teaching clinical subjects, propaedeutics internal medicine, general surgery and other bases for the teaching of clinical disciplines and the creation of clinical departments and course became the largest hospital of the city and country.

The Institute of Medicine is one of the leading departments of Mordovia State University

The Institute of Medicine has adequate space, (logistical and clinical base) for training highly qualified specialists.

There are four academic buildings.

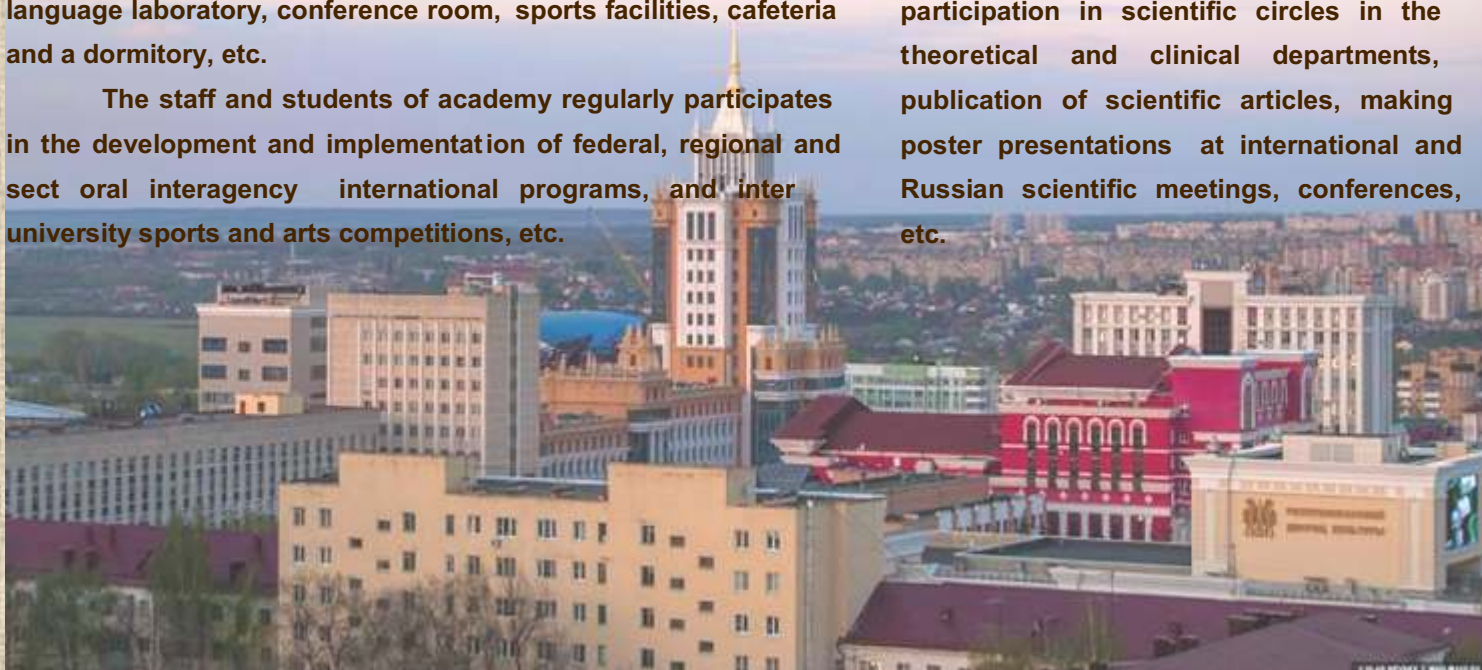

The scientific innovation infrastructure includes departments and laboratories, central research laboratory, anatomical museum, museum of history of medicine and 14 research centres, etc.

The clinical practices are conducted in major hospitals in city of Saransk. The institute of medicine have a full -fledged computing facility, library of medical literature and reading room, language laboratory, conference room, sports facilities, cafeteria and a dormitory, etc.

The staff and students of academy regularly participates in the development and implementation of federal, regional and sectoral interagency international programs, and inter university sports and arts competitions, etc.

Medical department of the university is one of the best medical school/institution in Russia. Our graduates are working adequately working in many regions of Russia, USA, Britain, Germany, India, Israel, Sri Lanka, Guinea, Yemen, Australia, Tunisia, CIS, etc.

Students Science is one of the priorities of the institute. Its diverse forms: participation in scientific circles in the theoretical and clinical departments, publication of scientific articles, making poster presentations at international and Russian scientific meetings, conferences, etc.

WHY DO STUDENT'S FROM MORE THAN 30 COUNTRIES CHOOSES N. P OGAREV MORDOVIA STATE UNIVERSITY?

The Key Reasons

N. P. OGAREV MORDOVIA STATE UNIVERSITY (MEDICAL INSTITUTE) is one of the leading Academic Institutions of Russian Federations, and the only largest University which conducts the Medical and other courses in **ENGLISH Medium**.

In 2010, N. P. Ogarev Mordovia State University was conferred a special category "National Research University". This status spurred the University into action by setting up new Laboratories with state- of-the-art and empowering academic mobility of teaching staff and students.

New deluxe halls of **HOSTELS** were opened in year 2010 to accommodate more than 1000 international students. Boys and Girls are having separate wings. Each floor has a cable TV and a Fridge. All rooms are having attached Toilet/wash room, centralized heating facility during winter season. Hostels are fully furnished with study table, chairs, cot/bed, etc. Equipped with external video surveillance system and a card reading system on entry doors, it makes them the safest place for living. Among the facilities are computer and language classes, with a Broadband Internet access, laundry rooms, performance halls and fitness rooms, etc.

The University offers an affordable fee structure for General Medical course, all fee amounts are collected by University directly in cash (Rubels). Cost of living in Saransk city is rather affordable as well.

INDIAN MESS

Note: An Indian Mess is operational for students from India and North & South foods are served. High quality and hygiene Veg. & Non Veg. foods are served 4 times in daily. Very soon it is going to expand in a very good professional way in the upcoming new International Medical Students Hostel building.
